

PAM'S UN·OAKED CALIFORNIA 2022 CABERNET SAUVIGNON

TASTING NOTES

This lovely UN-Oaked Cabernet is perfect for all gatherings. It's refreshingly fruity and light-bodied, with a beautiful ruby red color. It has vibrant fruit aromas of raspberries and fresh plums. With a touch of sweet, this wine is bursting with added notes of cranberries, blackberries and black cherries. Yet, it is fresh and light.

VINTAGE

The 2022 vintage provided Cabernet with remarkable quality. Mild and wet weather conditions in early spring, followed by frost in late spring affected overall yields. However, this lighter than usual harvest provided concentrated flavor and complexity. Harvested in early September, and fermented only in stainless steel tanks, we have crafted a fruity, delicious wine that is very approachable.

TERROIR

We source our grapes for our UN-Oaked Cabernet from family owned vineyards in Clarksburg and Lodi. These regions are well known for their sustainable ethics and Mediterranean climates. Like southern France, these regions can bring out a beautiful ripeness in the grapes, while maintaining fresh acidity.

WINEMAKING

These Cabernet grapes were de-stemmed into stainless steel fermentation tanks. Next, they were cold fermented to retain freshness and aromatic intensity.

FERMENTATION/AGING

100% stainless steel tanks
